Weekly Farm Share

Finnriver Farms is a 33-acre organic farm on Chimacum Creek, 2.5 miles south of the Finnriver Orchard. The farm is operated by Janet, Jeff & a small team of fabulous farmers who are enthusiastic & passionate about growing nutritious vegetables & (arguably) the best blueberries in the world. We incorporate pigs, chickens & ducks into our farming operation to increase soil fertility, & decrease weed & pest pressure. We are committed to land stewardship practices that enhance the quality of habitat, soil, water & community.

What is a CSA?

Community Supported Agriculture (CSA) is a partnership between producers & consumers. Eaters purchase share of the harvest; farmers grow you amazing produce & deliver it in a weekly Farm Box throughout the season. It is an investment in a local business, in your health & in your community.

All of our produce is certified organic by WSDA & our business is B-Corps Certified

25 week CSA Season May – October

- \$475 Standard Box
- \$565 Standard Box + 1/2 dozen eggs
- \$650 Standard Box + 1 dozen eggs

Boxes are priced to be a minimum 15% below market value

Pick up your box on Wednesdays in Port Townsend or Chimacum

Discover new recipes & easy cooking tips along with news from the farm in a weekly newsletter

The weekly CSA Box contains 6 to 8 different crops, reflecting what is in season on the farm. Our goal is to create a box that is not overwhelming in quantity. We want to provide you with staples & make sure you eat your veggies, but not commit you to cooking up a storm every week just to get through them before the next batch. Everything is freshly harvested just for you!

Berry Club Membership Included with CSA sign up (\$30 value)

Berry Club membership grants you access to our berry U-Pick & allows you to purchase at a discounted rate.
